GRÜNDERX · GRUENDERX.DE

The operating system for starting an online business in Germany.

Registrations, tax, compliance and marketplace setup as guided workflows, not as an advisor's hourly bill.

Sonni Buttke, Founder & CEO · Hamburg

4YFN Awards 2027

PROBLEM

Founding an online shop in Germany is a dozen bureaucratic steps before the first sale.

- Business registration, tax registration questionnaire, VAT ID
- Packaging register (LUCID), electronics register (WEEE), EU VAT (OSS)
- Amazon and TikTok Shop verification, legal texts, bookkeeping
- Advice costs €150+ per hour, mistakes cost fines or blocked seller accounts

SOLUTION

Every legal duty becomes an executable task, with the right tool, template and deadline in context.

90+

interactive tools: legal form selector, tax and VAT calculators, KPI and business plan, funding finder

100+

ready-to-use templates for contracts, letters and registrations

1

personal roadmap that tracks tasks and deadlines from idea to first sale

WHY WE WIN

Built by a seller, for sellers.

- Covers the real e-commerce pain points generic founder tools ignore: LUCID, WEEE, OSS, marketplace KYC
- AI-assisted pipeline monitors regulatory and funding sources, so a tiny team keeps a large catalogue current
- Free tools and guides rank in search and feed the subscription funnel
- Plain language for first-time founders, 39 % of whom are 18 to 29 years old (KfW 2025)

MARKET & MODEL

585,000 people started a business in Germany in 2024.

€234M

yearly TAM in Germany alone: 585,000 founders × about €400 annual spend (KfW-Gründungsmonitor 2025)

1.44M

Amazon third-party sellers in Europe as adjacent segment (Marketplace Pulse)

€64.99

per month or €649.90 per year; €99.99 bundled with our legal assistant AnwaltX. Next: B2B licences for chambers and incubators

FOUNDER

Sonni Buttke, 20, Hamburg

- Registered his first business at 15 after a family court granted him full business capacity
- Own e-commerce business: about €380,000 revenue in the last 13 months
- Recovered more than €85,000 in Amazon reimbursements for own and customer accounts with self-built software (ArbitrageX)
- Builds every product himself with an AI-agent-first workflow: GründerX, ArbitrageX, AnwaltX

NEXT 24 MONTHS

From launch to the default founder platform in DACH.

- 1,000 paying subscribers and €30,000 monthly recurring revenue
- First B2B licence with a chamber of commerce, incubator or university
- Austrian and Swiss editions, English version for international founders in Germany
